

# Become compliant with eCompetency

Pioneering software designed to work together with **Redcrier Training Solutions** to deliver a complete education and assessment package.

## What is eCompetency?

Offering something completely new to the market, **eCompetency accompanies Redcrier Training Solutions to provide a simple, innovative solution for health and social care workers to test their competency skills.** Designed by leading health and social care experts, eCompetency is the first platform to combine interactive software technology with industry standard assessment methods. **Read on to see the benefits...**
